| Kratek opisa predmeta razpisa: | <p>The EIC Accelerator focuses in particular on innovations, building on scientific discovery or technological breakthroughs ('deep tech') and where significant funding is needed over a long timeframe before returns can be generated ('patient capital'). Such innovations often struggle to attract financing because the risks and time period involved are too high. Funding and support from the EIC Accelerator is designed to enable such innovators to attract the full investment amounts needed for scale up in a shorter timeframe.</p> <p>The EIC Accelerator supports the later stages of technology development as well as scale up. The technology component of your innovation must therefore have been tested and validated in a laboratory or other relevant environment (e.g. at least Technology Readiness Level 5/6 or higher and have fully completed Technology Readiness Level 4). The EIC Accelerator looks to support companies where the EIC support will act as a catalyst to crowd in other investors necessary for the scale up of the innovation.</p> <ul style="list-style-type: none"> • <u>EIC Accelerator Challenge: Technologies for 'Fit for 55'</u> • <u>EIC Accelerator Open</u> • <u>EIC Accelerator Challenge: Technologies for Open Strategic Autonomy</u> | |

| Kratek opisa predmeta razpisa: | <p>In order to meet the needs of the cultural sector in the Danube region, to contribute to the implementation of the EUSDR and to give a proper answer to the challenges of the Covid-pandemic, the Ministry of Science, Research and Arts Baden-Württemberg (MWK) initiated a pilot action for the Danube Small Project Fund which is to elaborate the final structure and to test the long-term function of this innovative funding platform. The partner organisations of the Danube Small Project Fund agreed to jointly establish a pilot implementation phase from 2021-2023. The pilot phase is based on simple online calls at least once per year (depending on funding possibilities). Cultural actors in the Danube region can describe their concepts and enter them into an online form to apply for funding.</p> <p>The Danube Small Project Fund for Culture is a new funding opportunity for small scale culturalcreative initiatives based on collaboration among various partners – creatives and cultural operators – from the Danube countries.</p> <p>This call supports creative and innovative cultural and artistic actions (project proposals) based on regional collaboration.</p> <p>Creativity, innovation and collaboration are the 3 key focuses of this grant. Proposals that are rather “business as usual” or already running projects/programmes are not a priority. We are especially looking for project proposals that initiate supplementary or experimental cultural actions. Innovation can be related to the theme of the project, the genre or the type of collaboration/co-creation represented by the action. The quality of collaboration will be an important part of the evaluation.</p> <p>We do not have any preference for a specific artistic field or discipline within cultural work or the creative industries. We understand 'culture' as a very wide field covering work far beyond the classical arts and culture domain.</p> <p>This first DSPF call has no further thematic requirements, restrictions or specifications.</p> <p>Nevertheless, if you are looking for thematic orientation or are simply curious about what issues and topics are relevant for the Danube region or are addressed by the EU Danube Strategy, you can find information on the following websites.
