1.4 European Programme for Employment and Social Innovation (2014-2020) – PROGRESS Axis Actions to boost the development of finance markets for social enterprises

Izdajatelj:	EUROPEAN COMMISSION	
Status: aktiven	Datum objave: 3.12.2019	Rok prijave: • 21. 04. 2020
	https://ec.europa.eu/social/main.jsp?catId=629&langId=en&callId=578&furtherCalls=yes	
Kratek opisa predmeta razpisa:	<p>The objective of the call for proposals is to contribute to the development of a social finance market, by designing and launching financial instruments for social enterprises and, at the same time, generating effective demand for social finance among social enterprises by developing their “investment readiness”. Ultimately this should enable more social enterprises to take on repayable finance for developing and scaling up their business model. In this way the call aims at feeding the pipeline for the EU level financial instruments such as the EaSI Guarantee, the EaSI Capacity Building investments, the EFSI social impact investment instruments, as well as future EU level instruments for social entrepreneurship which will be launched under the InvestEU Fund.</p> <p>The call also encourages learning from different models and good practice in developing and enhancing social finance across the Union, through organized sharing and disseminating of expertise and experience.</p> <p>In order to achieve these objectives, the Commission will set up a learning network of the grant beneficiaries and facilitate peer learning and transnational exchanges. It will also assist projects in using EU financial instruments. (see section 16.1 for more details)</p> <p>In order to take into account the different stages of development of social finance markets as well as different stages in the preparation of financing instruments for social enterprises, the call offers two strands. Each strand addresses a specific configuration of barriers in the social finance market. Both strands aim to develop and connect the supply side of social finance (by establishing partnerships, financial instruments or financial intermediaries) and the demand side (by enabling the delivery of business development and investment readiness services for social enterprises).</p> <ul style="list-style-type: none"> • Strand A: Establishment of social finance partnerships • Strand B: Establishment of social finance instruments and mechanisms 	
Višina razpoložljivih sredstev:	2.500.000 EUR	
Maksimalna višina sofinanciranja:	<p>The EU grant requested should indicatively be:</p> <ul style="list-style-type: none"> - for strand A: between 150.000 EUR and 200.000 EUR - for strand B: between 200.000 EUR and 250.000 EUR <p>Under this call for proposals, the EU grant may not exceed 80% of the total eligible costs of the action. The applicants must guarantee their co-financing of the remaining amount covered by the applicants' own resources or from sources other than the European Union budget.</p>	
Ciljne skupine oz. potencialni upravičenci:	<p>Legal entities properly established and registered in the following countries are eligible as lead applicant and co-applicants:</p> <ul style="list-style-type: none"> • EU Member States; • Iceland and Norway in accordance with the EEA Agreement; • Albania, North Macedonia, Montenegro, Serbia and Turkey <p>Type of entities: To be eligible, the lead applicant, co-applicant and affiliated entity may be public or private entities of any type.</p>

1.7 Marie Skłodowska-Curie Research and Innovation Staff Exchange

Izdajatelj:	Evropska komisija	
Status: aktiven	Datum objave: 9.12.2019	Rok prijave: • 28. 4. 2020
	https://www.cnvos.si/razpisi/razpis/10679/obzorje-2020-marie-skłodowska-curie-izmenjave-raziskovalnega-in-inovacijskega-osebja-za-let-2020	
Kratek opisa predmeta razpisa:	<p>Objective: The RISE scheme promotes international and cross-sector collaboration through exchanging research and innovation staff, and sharing knowledge and ideas from research to market (and vice-versa). The scheme fosters a shared culture of research and innovation that welcomes and rewards creativity and entrepreneurship and helps to turn creative ideas into innovative products, services or processes.</p> <p>Scope: RISE involves organisations from the academic and non-academic sectors (in particular SMEs), based in Europe (EU Member States and Horizon 2020 Associated Countries) and outside Europe (third countries). Support is provided for the development of partnerships in the form of a joint research and innovation project. This is aimed at knowledge sharing via international as well as intersectoral mobility, based on secondments of research and innovation staff (exchanges) with an in-built return mechanism. The organisations constituting the partnership contribute directly to the implementation of a joint research and innovation project by seconding and/or hosting eligible staff members. Secondments shall always take place between legal entities independent from each other[1]. RISE should exploit complementary competences of the participating organisations, as well as other synergies, and enable networking activities, organisation of workshops and conferences to facilitate sharing of knowledge, new skills acquisition and career development for research and innovation staff members. RISE proposals can focus either on one dimension of mobility (intersectoral / international), or include a combination of both. Exchanges can be for both early-stage and experienced researchers and can also include administrative, managerial and technical staff directly involved in the research and innovation activities of the proposal. Support for the exchanges between institutions within Europe (EU Member States and Horizon 2020 Associated Countries) covers only intersectoral secondments. Exchanges with institutions from and to third countries can be intersectoral as well as within the same sector.</p>

Kratek opisa predmeta razpisa:	<p>This measure aims at supporting projects promoted by transnational partnerships and networks directly involving citizens. Those projects gather citizens from different horizons, in activities directly linked to Union policies, with a view to give them an opportunity to actively participate in the Union policy-making process in areas related to the objectives of the Programme. As a reminder, this can be achieved at all stages, and with all institutional interlocutors, and includes notably: agenda-setting activities, advocating during the preparation phase and negotiation of policy proposals, providing feed-back on relevant initiatives that are implemented. To that end, those projects will invite citizens to act together or debate on the multiannual priority themes of the Programme at local and European level.</p> <p>The project should consist in stimulating and organising reflection, debates or other activities related to the multiannual priority themes of the Programme and propose practical solutions that can be found through cooperation or coordination at European level, and ensure a concrete link with the policy making process indicated above. Projects should actively involve a large number of citizens in the implementation and aim at setting the basis for, or encouraging the development of, long-lasting networking between many organisations active in the field.</p> <p>This measure supports projects implemented by transnational partnerships promoting opportunities for solidarity, societal engagement and volunteering at Union level.</p> <p>A Civil Society Project must include at least two of the following types of activities:</p> <ul style="list-style-type: none"> Promotion of societal engagement and solidarity: activities promoting debate/campaigns/actions on themes of common interest in the framework of the rights and responsibilities of the Union citizens and making the link to the European political agenda and policy making process. Kratek opis predmeta razpisa:	<p>Municipalities and associations working together on a common theme in a long-term perspective may wish to develop networks of towns to make their cooperation more sustainable. Networking between municipalities on issues of common interest appears to be an important means for enabling the exchange of good practices.</p> <p>Twinning is a strong link that binds municipalities; therefore, the potential of the networks created by a series of town twinning links should be used for developing thematic and long-lasting cooperation between towns. The European Commission supports the development of such networks, which are important for ensuring structured, intense and multifaceted cooperation, therefore contributing to maximising the impact of the Programme.</p> <p>Networks of Towns are expected to:</p> <ul style="list-style-type: none"> • Integrate a range of activities around the subject(s) of common interest to be addressed in the context of the Programme's objectives or multiannual priorities; • Have defined target groups for which the selected themes are particularly relevant and involve community members active in the subject area (i.e. experts, local associations, citizens and citizens' groups directly affected by the theme, etc.); • Mobilise citizens across the Europe: a project should involve a minimum of 30% of invited participants. "Invited participants" are international participants sent by the eligible partners. At least 30% of the projects' participants travel from eligible Programme countries to the country/ies hosting Networks of Towns events. It is possible to have participants to events from countries other than those where project partners are established, provided that they come from eligible countries within the framework of the Europe for Citizens Programme. • Serve as a basis for future initiatives and actions between the towns involved, on the issues addressed or possibly on further issues of common interest.
