Vir objave:	https://www.coe.int/en/web/european-youth-foundation/pilot-activity	
Kratek opisa predmeta razpisa:	<p>The European Youth Foundation provides financial and educational support to a wide range of youth projects, focusing on a range of different topics.</p> <p>Pilot Activities are flexible in their format and may utilise a range of approaches, such as training sessions, meetings with experts, local workshops, local actions, visits, campaigns, workshops in schools, festivals etc. An essential feature of a pilot activity is the educational element - the EYF supports education projects, using a non-formal approach. The pilot activity can be :</p> <ul style="list-style-type: none"> • An awareness raising activity: participants are informed or educated about a topic or an issue, with the intention of influencing their attitudes, behaviours, solutions or responses in their local context. At the end of the activity they can say “I have learned this” or “I am aware of that”. • A Skills development activity: participants develop skills to address identified needs. At the end of the activity they can say: “I can do this” or “I have the ability to do that”. • Collaborative work: participants’ skills and knowledge serve as a basis to build and develop an outcome (for example a campaign, guidelines, recommendations etc.) and at the end they can say “I have contributed to the development of this or that”. 	
Višina razpoložljivih sredstev:		
Maksimalna višina sofinanciranja:	<p>The maximum grant available for a Pilot Activity in 2022 is 15.000 €. The EYF can cover the all real costs of the activity up to this amount.</p> <p>The EYF will initiate the payment of the first instalment – 80% of the grant awarded – 10 weeks before the start of your activity. However, it can take up to 3 weeks until the money arrives into your bank account. The remaining 20% will be paid upon receipt and approval of the final report</p>	
Ciljne skupine oz. potencialni upravičenci:	<p>Regional networks of youth NGOs</p> <p>National youth NGOs</p> <p>Local youth NGOs</p>

Kratek opisa predmeta razpisa:	<p>The overall objective of the Strand 1 call is to provide financial and advisory support for interregional innovation investments in shared and complementary smart specialisation areas along European value chains.</p> <p>An interregional investment is a combination of assets (time, money, effort, etc.) or items mobilised across borders with the view to generate income and/or to create future value for more than one region. It is a concrete concept to develop innovation and valorise available research results in a specific value chain. The development of the business and investment cases is facilitated by the regional innovation ecosystems with companies in the lead. I3 business investment cases have a minimum TRL 6 and have the ambition to facilitate demonstration and to accelerate market uptake and commercialisation.</p> <p>The goal is to mobilise tangible and intangible investments in companies, in particular small- and medium-sized enterprises (SMEs).</p> <p>To enable less developed regions to participate in EU value chains, contributing to cohesion policy objectives.</p> <p>To link and align the bottom-up process centred on “entrepreneurial discovery” that involves interactions among quadruple helix actors to identify new regional technological domains and market opportunities with the EU priorities; and to bridge the gap between the supply and demand sides and help innovation ecosystems overcome market failures.</p> <p>To provide support for companies (in particular SMEs) in building portfolios of interregional innovation investments in shared or complementary S3 priority areas; and to support the demonstration, market uptake and scaling up of mature innovations to be brought on the market.</p> <p>Under this call, applicants have the possibility to include Financial Support to Third Parties (FSTP) in the form of “Cascade funding” for grants in their proposal. FSTP allows to select SMEs during the implementation phase in order to contribute to the investment project by carrying out necessary and missing tasks e.g., to complete a specific value chain and/or to offer a specific groundwork for testing and optimising products and production processes, or for the exploration of new processing technologies. The costs for financial support to third parties cannot exceed 30% of the total eligible costs.</p> <p>Thematic priorities - I3-2023-INV1 Applications under this call for proposals must address one of the following thematic priorities:</p> <ul style="list-style-type: none"> • Digital transition or • Green transition or • Smart manufacturing <p>linked to the burning challenges identified in the New European Innovation Agenda. Each project application under this call must address one thematic priority and at least one burning challenge. Applicants wishing to apply for more than one thematic priority, must submit a separate proposal.</p>	
Višina razpoložljivih sredstev:	31.213.426,50 EUR	

Maksimalna višina sofinanciranja:	At least 70% of the total eligible costs must be allocated to investments in companies, with a focus on SMEs. Project budgets (maximum grant amount) are expected to range between 2.000.000 EUR and 10.000.000 EUR per project, but this does not preclude the submission/selection of proposals requesting other amounts, if duly justified in the application. The grant awarded may be lower than the amount requested.
Ciljne skupine oz. potencialni upravičenci:	In order to be eligible, the applicants (beneficiaries and affiliated entities) must: <ul style="list-style-type: none">– be legal entities (public or private bodies)– be established in one of the eligible countries, i.e.:<ul style="list-style-type: none">– EU Member States (including overseas countries and territories (OCTs))– non-EU countries:<ul style="list-style-type: none">– listed EEA countries and countries associated to the I3 Instrument or countries which are in ongoing negotiations for an association agreement and where the agreement enters into force before grant signature (list of participating countries).

Kratek opisa predmeta razpisa:	<p>NORFACE in collaboration with CHANSE now proposes a major transnational programme on the topic of “Enhancing Well-Being for the Future”. This theme can be approached from a variety of perspectives and disciplines, primarily social sciences and beyond. It enables and encourages multi-disciplinarity and provides opportunities for pan-European research integrating researchers from different regions of Europe, and for comparisons across various contexts and over-time.</p> <p>The program Enhancing well-being for the future will have three major objectives:</p> <ul style="list-style-type: none"> • To advance excellent and internationally leading theoretical and methodological research on wellbeing, which may be multi-disciplinary, inter-disciplinary and comparative, and which builds synergistically on a pan-European basis. • To develop and promote theoretically grounded, research-based knowledge and insight into wellbeing related to issues of high societal, policy, economic and practical relevance, in ways that have the potential to have substantive impact on people’s lives. • To motivate and support excellence and capacity building for research on well-being on a crossnational basis throughout the NORFACE countries, Europe, and beyond. <p>There are several important lines of research that are key for the enhancement of well-being. Knowledge is needed on the distribution and determinants of well-being, consequences, potential targets for intervention, and policy options for widespread implementation. The present call proposes to focus the research on the following themes:</p> <p>(i) Crises, challenges, and well-being. (ii) Environmental challenges and well-being. (iii) Well-being and mental health. (iv) Well-being, economy, and politics.</p> <p>The Call will finance the applications with the highest scientific quality, regardless of which theme(s) they relate to. Please note that the call excludes proposals primarily focusing on the development and/or evaluation of interventions.</p>

Kratek opis predmeta razpisa:	<p>The full name of the project, which we commonly refer to as RESETTING, is ‘Relaunching European smart and sustainable tourism models through digitalization and innovative technologies’. In essence, RESETTING aims to facilitate a transition towards more resilient, circular and sustainable operational models of European tourism enterprises through the testing and mainstreaming of innovative and digitally-driven solutions which reduce unnecessary burdens, enhance the quality of the tourist experience, contribute to the decarbonization of the tourism sector and, ultimately, to more inclusive economic growth for SMEs and residents.</p> <p>Furthermore, RESETTING aims at building a network between small and medium-sized enterprises operating in the tourism sector across five different European countries, namely, Albania, Greece, Italy, Portugal and Spain. The added value of this project is to provide SMEs with innovative digital tools and everlasting competencies to further promote and enhance sustainable tourism in Europe.</p> <p>It is important to highlight that RESETTING is one of the nine COSME projects across the European continent, which has been selected by the European Innovation Council and SMEs Executive Agency (EISMEA), back in 2021. This project started in January 2022 and will end in June 2024 (30 months).</p> <p>The overall budget of RESETTING is 1.3M €, of which the European Commission funds 75% of this amount. The remainder is provided by the consortium partners through a funding cascading model.</p> <p>In a nutshell, the four objectives identified by the project are as follows:</p> <ul style="list-style-type: none"> To support tourism SMEs in receiving funding through a cascading model that will allow them to improve their technical capabilities in their digital transformation. To enable tourism SMEs a transition to more resilient, innovative, circular and sustainable business models that add more value to the product / service of companies, with lighter ecological footprint. To stimulate transnational knowledge transfer by thinking about how to replicate the model in a scalable way, and especially about its continuity once the project is completed. To help accelerate the decarbonisation of SMEs to contribute to more inclusive economic growth in the tourism sector and destination residents. The eight partners that constitute the consortium are based in five different countries: <ol style="list-style-type: none"> 1) Eurecat, Technology Centre of Catalonia (Spain) 2) Albanian Trip (Albania) 3) *The Cluster TIC Catalunya Sud (Spain) 4) *The Heraklion Development Agency (Greece) 5) Iscte - University Institute of Lisbon (Portugal) 6) The City Hall of San Benedetto del Tronto (Italy) 7) *AUDAX (Portugal) 8) *FEHT (Spain)

1.18 Call for proposals ER-COMM-SUBV-2024-LOCAL EYE: Organisation of two local EYEs in 2024

Izdajatelj:	European Parliament	
Status: aktiven	Datum objave: 3.7.2023	Rok prijave: • From 11.7.2023 to 5. 9. 2023 17:00 (CET)
Vir objave:	https://www.europarl.europa.eu/contracts-and-grants/en/grants/media-and-events	
Kratek opis predmeta razpisa:	<p>The objective of the call is the organisation by two different organisers of local EYEs taking place over a weekend in two different EU Member States before the European elections in 2024.</p> <p>The aim of a local EYE is to activate and inspire young people, and make them part of a conversation with European decision makers at the local level and pave the way for a long-lasting engagement. It should bring the EP closer to young people in peripheral regions of Europe, promote European democracy and create a two-way communication, raising awareness on what the EP does for them as young people and at the same time collecting ideas and expectations of young people from the local and national levels on the future of Europe.</p> <p>A local EYE is organised under the EYE spirit and branding, and designed to be accessible (for young people who cannot afford travelling to Strasbourg to the central EYE) and inclusive (local EYE in national languages). A local EYE is a stand-alone event. It should not be organised as a sub-event of a bigger event (e.g. local EYE as part of a bigger festival and reduced to a tent of the latter).</p> <p>A local EYE should also offer a diverse range of activities to attract as many young people as possible, and should not be limited to a single type of activity (e.g. a Parliament simulation) in order to allow a diverse audience to take part and reach out to young people who are less likely to already be involved in EU actions. Activities should not all be organised by the beneficiary, but co-created together with other youth and civil society organisations as well as public entities at European, national, regional and local level. Co-creation of activities with the European Parliament is also to be planned. These activities can be complemented by European Parliament's own initiatives.</p> <p>A local EYE should, as much as possible, involve cross-border cooperation.</p> <p>The expected outcomes of the action are to strengthen European citizenship among young people, make them aware about how the EU works and the democratic role of the European Parliament, and empower them to become active citizens.</p>	
Višina razpoložljivih sredstev:	The available budget for this call is 220.000 EUR for both projects.
