1 RAZPISI, objavljeni v tujini**1.1 Call for proposals to prevent and combat gender-based violence and violence against children**

Izdajatelj:	European Programme for Integration and Migration (EPIM)	
Status: aktiven	Datum objave: 8.3.2018	Rok prijave: • 13. 11. 2018 17:00:00 Time Zone : (Brussels time)
Vir objave:	http://ec.europa.eu/research/participants/portal/desktop/en/opportunities/rec/topics/rec-rdap-gbv-ag-2018.html	
Kratek opis predmeta razpisa:	<p>1. Priorities</p> <p>1.1 Prevention of gender-based violence (GBV): The focus of this priority is on primary prevention, in particular changing social norms and behaviour, in order to end tolerance of all forms of gender-based violence. This includes concrete and practical activities to tackle prejudices and gender stereotypes, norms, attitudes and behaviours that encourage, condone or minimise violence, as well as to arm women and men with the tools to call out and stand up to violence through empowerment and bystander intervention programmes. Actions could include, but are not limited to education and training. Any form of gender-based violence can be covered under this priority, including specific forms, such as harmful practices. Proposals must explain which social norms, attitudes and behaviours they aim to address, and how, and justify how activities, encouraging or discouraging these attitudes and behaviours, will contribute directly to the prevention of gender-based violence.</p> <p>1.2 Protection and support for victims and witnesses of domestic violence, including through tackling under-reporting, promoting multi-disciplinary cooperation, and capacity building for relevant professionals. This involves the strengthening of child-centred and/or gender-specific responses to domestic violence (including child victims/witnesses of domestic violence), through capacity-building and multi-disciplinary strengthened cooperation and coordination among relevant actors, such as child protection and law enforcement professionals. Projects involving organisations and authorities working directly with the relevant target groups, with an empowerment/child participation focus, will be welcome. Projects that seek to address known gaps in protection and support for victims and witnesses of domestic violence (e.g. such as where responses/shelters/activities/therapeutic services may not cater to children of all ages, exclude older children, innovative approaches to empower victims, etc.) will be welcome (see example of business start up support for women victims of domestic violence).</p> <p>1.3 The coordination and/or adaptation of support services for sexual and gender-based violence to include refugees and migrants (children, women, LGBTI persons, men and boys), in particular to ensure their recovery from such trauma. The aim is not to create new, separate or parallel services but to adapt existing services in an inclusive manner. This call will not fund operating or running costs, but is intended to build capacity and adapt frameworks to include people in migration, for example where outreach to new facilities and structures are needed or where the involvement of cultural/health mediators/interpreters could help.</p> <p>1.4 Prevention and responding to cyber sexual- and gender-based violence (targeting children, women, LGBTI persons, men and boys), such as revenge porn, extortion with the use of sexual imagery ("sextortion"), sexual or gendered online harassment/bullying, grooming, etc. This involves capacity-building for relevant professionals, awareness-raising with the general public, education and empowerment for (potential) victims in claiming their rights, as well as tackling prejudices and gender stereotypes and norms that encourage or condone violence.</p> <p>1.5 Promoting the embedding of child safeguarding policies across different settings and sectors, such as sports clubs and organisations, extra-curricular activities and/or leisure/recreation clubs/organisations for children (including faith/church-led; scouts and girl guides, private schools), both as a means to protect and safeguard children as well as to equip</p>

1.2 Agricultural digital integration platforms

Izdajatelj:	European Commission

Vir objave:	https://ec.europa.eu/research/participants/portal/desktop/en/opportunities/h2020/topics/dt-ict-08-2019.html	
Kratek opisa predmeta razpisa:	<p>Agricultural research and innovation supports the sector in coping with a complex mix of challenges it is facing, including for example the pressures on natural resources and farm revenues. Knowledge creation and accessible information systems and tools to monitor, gather, transform and above all share vital information between key stakeholders can help the sector to become more sustainable. However, as well as the potential for new knowledge, a substantial part of the existing knowledge and its underpinning information flows, has yet to be exploited to its full potential. The resulting performance gap has strong social, ecological and economic implications. An improved functioning of the agricultural knowledge and innovation systems is needed, for timely innovation and to speed up the rate of knowledge creation. One of the most important constraints concerns the limited interoperability and lack of openness of different technical systems, thus limiting the choices farmers can make between suppliers of new technologies. An enhanced interoperability would allow for increased data sharing and the resulting knowledge generation. Another main constraint is the lack of information on the effectiveness of new technologies which slows down their take up.</p>
